Child Care Centers
SPECIALTY COVERAGE

Things are changing every day for child care companies.

Here's what doesn't change: You need good advice when managing risk.

Diversified Insurance Industries has over a decade of demonstrated expertise in building insurance relationships for child care companies. Because insurance is a major component of franchise and state/local business compliance, it is important to insure correctly and completely. Insurance carriers view child care companies in categories of risk, therefore complete coverage requires policies that cover these core risk categories.

Our child care experts will help you find coverage for these core risk categories:

- General Liability
- Professional Liability
- Abuse and Molestation Liability
- Employment Practices Liability
- Cyber and Privacy Liability
- Workers Compensation
- Property and Automobile Coverage
- Student Accident and Medical
- Employee Benefits – Health, Dental, Disability, Life

Once these primary areas of risk have been addressed, DII will guide you through any additional coverages you may want to pursue, and will work side by side with you as your company changes over time. Our team is dedicated to continually protecting your company and we are always ready to serve when needed.

Personal Relationships – We value our personal relationship with our customers. We partner with you to prevent and solve problems within your child care operations.
